DETAILED ACTION

Drawings

Twenty-five (25) sheets of drawings were filed on 02/02/2005 and have been accepted by the examiner.

Specification

Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification

Allowable Subject Matter

Claims 1-3, and 9-26 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art cited on the attached from PTO-892 and/or on the Information Disclosure Statement filed by the Applicant, is the most relevant prior art known, however, the invention of Claims 1-3, and 9-26 distinguishes over the prior art of record for the following reasons.

Claims 1-3 are drawn to an optical device wherein a moveable reflection member is actuated by a driving member. The closest prior art of record belongs to Chen US-6,968,099 and Morimoto US-2002/0003919. However the prior art is silent to wherein the driving member is operable to actuate the single movable reflection member in a first direction perpendicular to an optical path, and a second direction perpendicular to the optical path and the first direction. Although the prior art above discloses similar structures the reflection member of both Morimoto and Chen is only able to actuate in one direction. Both of the reflection members of Chen and Morimoto are not capable actuating in the direction described in Claim 1-3 by the applicant.

Hence for the reason above Claims 1-3, and 9-26 are allowed. Claims 9-14 depends on Claim 1.
Claims 15-20 depends on Claim 2. Claims 21-26 depends on Claim 3.
